INSPIRING TOMORROW'S **MANUFACTURER** TODAY.

**MANUFACTURING DAY** is designed to expand the community's knowledge and improve the general perception of manufacturing careers and the value they add to the economy. Additionally, the manufacturers will learn about business improvement resources and services delivered through manufacturing partnerships.

Join us at Vincennes University - Jasper Campus in the Center for Technology, Innovation & Manufacturing to learn how world class products are made in this area. Several local manufacturing companies will be on display, illustrating the magnitude of their products. You will experience innovative technology labs designed for training and demonstrating advanced manufacturing processes.
